TI-83 Plus graphing calculators

Test preparation: Resetting all memory

Use this method when exams require clearing all calculator memory. Clearing all memory deletes all programs and deletes all calculator applications (apps).

IMPORTANT: Resetting all memory premanently deletes all applications (apps) from the calculator. Back up your TI-83 Plus to a computer before resetting so they can be restored after the exam.* (Note: The Finance app is built-in functionality and will remain in place after a reset.)

Resetting all memory

Before the exam
Resetting all memory prior to exams will ensure that no user saved information is available during the exam.

After each exam
Repeating all of the steps will reset all memory again and ensure that any information entered or saved during the exam is permanently deleted.

* Use TI-Connect™ software to back up your TI-83 Plus graphing calculator prior to preparing it for an exam (resetting all memory) and to restore applications after the exam.

Screens may vary slightly by model and Operating System (OS).

1) Press 2nd [mem] to display the MEMORY menu.

```
MEMORY
1:About
2:Mem Mgmt/Del…
3:Clear Entries
4:ClrAllLists
5:Archive
6:UnArchive
7↓Reset…
```

2) Select **7: Reset** to display the RESET menu.

```
RAM ARCHIVE ALL
1:All RAM…
2:Defaults…
```

3) Press ▶ ▶ and select **1: All Memory**

```
RAM ARCHIVE ALL
1:All Memory…
```

4) Select **2: Reset** to erase all data and programs. Factory defaults are reset.

```
RESET MEMORY
1:No
2:Reset
Resetting ALL
will delete all
data, programs &
Apps from RAM &
Archive.
```

Mem cleared is displayed on the screen to confirm all non-system variables and programs have been deleted.

```
TI-83 Plus
1.19

Mem cleared
```
